Kelley H. Begley-McCall

March 1, 2017

Dear Sir/Madam,

It is with great eagerness that I am applying for the position of administrator of Joshua Eaton Elementary School. My family and husband are from the Boston area, and we are currently in the process of moving back.

I earned a Bachelor of Arts in Elementary Education from Wichita State University in 2005 and a Master of Science in School Leadership from Baker University in 2012. Also, I currently hold my license in building administration and am in my second year as building principal with the Hutchinson Public Schools.

I believe that I have many skills that will help make me a great addition to your staff. Some of my strengths include strong communication skills, knowledge of the Common Core Curriculum, and my ability to collaborate and work well with others. Also, my experience as a principal under a very dynamic administrative team has been instrumental in my growth as a leader.

During my time as a principal and a teacher, I have had many opportunities to practice and demonstrate my leadership skills. Each district has allowed me to lead professional development, asked me to represent the district at various trainings, and allowed me to be on various curriculum focus teams. They have also afforded me the opportunities of being trained in Adaptive Schools, CHAMPS, Inspired Leadership, and DuFour's PLC trainings.

I have also been elected president of a non-profit organization named VC Cares for Kids. This organization provides help for those in our community during times of personal crisis, with supplies for the beginning of the school year, and by helping providing Christmas to area families.

As my resume will demonstrate, I have had the opportunity to teach in

many grade levels. I have a passion for curriculum and instructional practices and collaborating with colleagues to implement those practices in the classroom. I also pride myself in staying current with educational trends, research, and technology through my professional learning network made up of experts in and out of our state. I also communicate daily with two principal groups on Voxer. These groups help keep me motivated and supplied with new ways to make a difference in my building.

I look forward to discussing with you the many ways in which I can make a contribution to your district. Thank you in advance for your time and consideration.

Sincerely,  
Kelley H. Begley-McCall
